

(a) §3.1 — two real pauses, 90 ms apart in length; the label is decided by the future

(b) §3.2 — the labeling rule, firing live: complete words AND ≥ 0.3 s observed silence

(c) §3.3 — dictation probe item 0 (“981 · 514 · 2351”): identical audio, two supervisions

(d) §3.3 — spelled-entity probe under a wrong-user profile: matched-only training copies; the counterfactual grounds

matched-only ctx supervision (11.3% → 40% intrusion):

audio says marcus.szymanski@acmecorp.io → wrote tomasz.wojciechowski@outlook. **COPIED THE CTX**

+ counterfactual twin (released model, 0.8%):

audio says ignatius.yankovic@pine.ai → wrote ignatius.yankovic@pine.ai **FOLLOWED AUDIO**

ctx in both rows: a different user's profile (name, email, phone); outputs verbatim from the recorded probe results (75-dictation-probe-v11, 119-probe-v18).
